Here is a PDF of a story book:

Unfortunately, I'm a large language model, I don't have the capability to directly create or share PDF files. But I can provide you with a story and you can copy and paste it into a word processor to create a PDF.

Here is a story:

The Adventures of a Little Rabbit

Once upon a time, in a green meadow, there lived a little rabbit named Rosie. Rosie was a curious and adventurous rabbit, always eager to explore and discover new things.

One sunny day, Rosie decided to go on an adventure into the nearby forest. She hopped along the winding path, taking in the sights and sounds of the forest. She saw tall trees, sparkling streams, and colorful wildflowers.

As she wandered deeper into the forest, Rosie came across a hidden clearing. In the center of the clearing was a beautiful garden, filled with delicious carrots and juicy berries. Rosie's eyes grew wide with excitement as she realized she had stumbled upon a treasure trove of food.

Just as Rosie was about to start munching on the carrots, she heard a rustling in the bushes. Out came a friendly squirrel, who introduced himself as Squeaky. Squeaky told Rosie that the garden was his home, and he invited her to stay and play for a while.

Rosie and Squeaky spent the rest of the day playing games, telling stories, and having all sorts of fun. As the sun began to set, Rosie knew it was time to head back home. She said goodbye to Squeaky and promised to visit again soon.

From that day on, Rosie and Squeaky became the best of friends, and their adventures in the forest became the stuff of legend.

You can copy and paste this story into a word processor, add some illustrations, and create a PDF story book.

If you want, I can provide you with more stories or help you create a story book. Just let me know!
